1.10 Principal Function of Company:

Manufacturing and supply of pipe support equipment for the global energy industries; these include power plants - both conventional & nuclear, petro-chemical, oil, gas, LNG, renewables, water treatment, fertilizers & sustainable transport applications.

1.11 Product Listing:

Manufactured Products:

- Variable & Constant effort supports
- Alloy components & clamps
- Pipe clamps and attachments
- Ancillary support equipment
- Structural steelwork and steel fabrication

- Cryogenic PUF cold supports
- PTFE sliding supports
- Comlin isolation products
- Surveys of existing pipework
- PSL CAD computerized support design/drawing system & PS Designer software.
- Densified Wood (cold supports)
- Hydraulic Snubbers and dampers
- Bergatherm Composite Load Bearing Insulation/Isolation Products

1.12 National and International Standards commonly used:

IBR-REG-371	- Indian Boiler Regulations
ASME	- Boiler and Pressure Vessel code section III subsection NF
	- Nuclear Power Plant Components
ANSI-B31.1	- Power Piping
ANSI-B31.3	- Petroleum Refinery Piping
MSS-SP58	- Pipe Hangers and Supports
BSEN13480	- Metallic and Industrial Piping

1.13 Brief History:

Bergen Pipe Supports (India) Private Ltd. (BPSI) was established in 2011, with a new, purpose-built plant for the manufacture of the Bergen range of supports being constructed in Chennai. Prior to that the Pipe Supports Group had a joint venture partner in India, trading under the name of Pipe Supports India Private Ltd.

BPSI is wholly owned by Hill & Smith PLC.

BPSI operates to international standards for all aspects of design, manufacturing processes and quality control. To satisfy customers' domestic and export requirements BPSI uses the same fabricating equipment and quality assurance system as developed by our headquarters in the UK. Our Quality Assurance and Control systems have been assessed by TUV Rheinland and we are formally approved to the requirements of ISO 9001: 2015
